

StackPak®

Breakthrough Tray System Really Stacks Up!

BENEFITS

- Unique patented latch design* allows you to stack trays while keeping them secure.
- Choose from two standard tray heights designed to accommodate various instrument sets.
- Choose from three standard tray lengths to maximize valuable storage space and sterilization load capacity.
- Add additional trays if the set expands.
- Only ONE lid required to cover it all.
- Fully modular system is compatible with all existing MultiPak® accessories.

StackPak® is a revolutionary new way to handle, transport, organize and sterilize your delicate surgical instrumentation. The unique latch design* creates a simple way to combine complex instrument sets into one neat package. It makes organization a snap, and you will not out grow the system.

The Symmetry Medical StackPak is compatible for use with the majority of today's complex sterilization methods.

Contact your local Sales Manager for more information and a risk-free demonstration.
