Protect Selected Areas From Fluid Waste.

Contain Control
Dispose

WaterBoom™ Quiet Floor Suction Strip

Low Profile Includes 12' of flexible tubing attached from the side reducing trip hazards. During use, you can step on or roll over it without the loss of suction.

Conforming Design provides strong suction while conforming to your operating room floor.

32" of Suction Capability creates a dam to contain fluids on the floor before they spread.

Quiet Operation Absorbent material ensures quiet wicking operation.

End Caps help to contain and channel the flow of fluid for complete fluid removal.

Finally, a better solution for protecting selected areas from fluid waste. Introducing the new WaterBoom™ Quiet Floor Suction Strip, the most effective way to stop the flow of fluid waste on your operating room floor. This unobtrusive device requires no attention or repositioning and is perfect for those who prefer nothing under their feet.

The WaterBoom™ Quiet Floor Suction Device is a convenient and effective means of controlling infectious waste fluid generated during wet procedures. It creates a dam to hold back, contain and quietly suction an unlimited amount of waste fluid. Using the WaterBoom helps reduce the likelihood of injuries associated with wet floors. In addition, it helps protect healthcare professionals and housekeeping personnel from contact with contaminated substances and aids in your efforts to comply with OSHA's Bloodborne Pathogen Standard.

Control fluids generated during wet procedures by strategically placing and creating a dam to hold back and quietly suction an unlimited amount of waste fluid.

Contain fluids in selected areas with the WaterBoom's low profile and conforming design providing strong suction of unlimited amounts of fluid while conforming to your operating room floor.

Dispose of the WaterBoom and potentially hazardous waste in accordance with your facility's protocol for a quick and easy room clean-up.

If solidifying, ViraSorb® Super Solidifier may be used to contain and solidify fluids to help your facility comply with the Department of Transportation's packaging requirements.
